

FEATURES

- Input voltage : 24VDC (12VDC to 30VDC), with reverse polarity protection
- Operation current : Fire bell with strobe LED, 50mA, 65mA max. at 24VDC
- Strobe : over 8,000 mcd (6pcs super bright LEDs)
- Sound output : 100 dB +/- 5dB at 24VDC
- Tone type : alarm siren
- Operation temperature : -10 to +60 degrees Celsius
- Continue operation test at 24VDC: over 72 hours
- Life test : on : 1 minute, off : 30 seconds
- Duty cycle at 24VDC : continuously over 500 hours period
- Size : 81.5 x 81.5 x 52mm (fit European junction box)

SPECIFICATION

Type	CL-207L
Input voltage	DC 24V (12-30V)
Alarm current	50mA @ 24V
Strobe	over 8,000 mcd. (6pcs super bright Led)
Sound output	100 5dB @ 24V
Tone type	Alarm Siren
Operation Temp	- 10° C -+ 60° C
Size	81.5 x 81.5 x 52 mm
