

Features /

1. With dual LED, easy to observe state of detector.
2. The dual LED light up constantly when the detector alarms.
3. With large metal surface to expose the air to sense the temperature.

Sensing way /

As fire is formed rapidly, the rapid heat convection and hot wind make the room temperature rise drastically. The Rate of rise heat detector can respond to the speedy rise of temperature within a short period of time and alarm is initiated.

Specifications /

Model No	HC-306A Rate of Rise Heat Detector	Overall structure	
Rated voltage	18V-28V (DC24V)	Material	Fire-resisting ABS material
Standby current	0 μ A	Joint contact	Copper (zinc-plated)
Alarm current	60mA	Base	Fire-resisting ABS material Copper contact (zinc-plated)
Suitable temperature	-15~50° C		
Suitable humidity	0~95% RH	Color	Ivory
Size	103mm x 43mm		
Weight	140g
